## Configure Router

You can configure your network router (Wi-Fi or directly connected) to use Norton ConnectSafe. All computers and devices that connect to the Internet through this router will use Norton ConnectSafe with the selected protection policy.

**Note:** Steps provided below can vary for different routers.

### General Router Setup Instructions

1. Enter the IP address of your router in a Web browser.
2. Enter the username and password. (The default username and password are provided in the router's directions).
3. Navigate through the router menu system and locate the DNS Server settings. It may look like this:

Primary DNS Server	123.456.789.123
Secondary DNS Server	123.456.789.124
4. Enter the Norton ConnectSafe IP addresses shown in the **yellow box** (on this page to the right) and save your changes.

If your router came with a setup CD, you can run the CD to access the set up tools. You will want the Manual router setup, not the automatic or wizard set up.

We will be adding specific instructions for common routers in the near future.

### What is the IP address of my router?

For most home networks, the default router address is 192.168.1.1 or 192.168.0.1 or 192.168.1.254.

#### To find the IP address in Windows

1. On the Windows task bar, click **Start**, and then click **Run**
2. In the **Run** dialog box, type `cmd`, and then click **OK**
3. In the window that appears, type `ipconfig`, and then press **Enter**

The IP address that appears next to **Default Gateway** is your router address. You may have to scroll up or down to view the details.

**Chose your protection policy**

- A - Security (malware, phishing sites and scam sites)
- B - Security + Pornography
- C - Security + Pornography + Other

▶ Preferred DNS: 199.85.126.20  
▶ Alternate DNS: 199.85.127.20

All policies block malware, phishing and scam sites.

**Pornography** includes sites that contain sexually explicit material.

**Other** includes sites that feature: mature content, abortion, alcohol, crime, drugs, file sharing, gambling, hate, suicide, tobacco or violence.

# K9 Web Protection

from Blue Coat

[K9 HOME](#) [ABOUT K9](#) [GET K9 NOW](#) [SUPPORT](#)

## Welcome to the K9 Community!

Thank you for choosing K9 Web Protection! At Blue Coat, we believe that homes connected to the internet should be safe. Whether you are protecting children from adult content, assisting yourself in avoiding threats and temptations, or keeping your computer clean from spyware and malware, we hope that K9 will serve you well. For these reasons, we make K9 Web Protection free to all home users.

We also need concerned and involved people like you to help us spread the word about these issues and the tools available to help others. Below are some suggestions on effective community actions.

### Install K9 Web Protection

Do the following to install K9 Web Protection:

1. [Download K9 Web Protection](#)
2. During the installation, you will be asked for your license. Your K9 Web Protection license is:  
  
**K96E99CFZB**
3. You will also be asked for an administrator password. Please choose one that you will not forget. K9 Web Protection is a security product, and by design, it's hard to get around, so please

### REMEMBER YOUR PASSWORD!

You will need this password to adjust K9's settings or to uninstall the product.

4. Certain firewall settings can hamper or disable functionality of K9 Web Protection. Make sure to instruct your firewall to always allow k9filter.exe

## Download K9 for Win/Mac

K9 Web Protection will run on Microsoft® Windows 7 and higher, and Mac OS X 10.8 (Mountain Lion) and higher.

It requires very little disk space, memory, or processing power. We recommend that you have about 25 MB of free disk space available for log files.

You will need a K9 Web Protection license *before* you install the software. [Click here](#) to get your license if you have not already.

To get the software, agree to the following statement and then click the appropriate button that corresponds to your operating system. Double-click the installation file to begin installation. You will have to agree to our EULA and Terms of Service to install or use K9 Web Protection.

By clicking on the following buttons, I agree to the applicable [K9 Use License and Services Agreement](#), as amended from time to time, and acknowledge that I have read and understood the [Blue Coat Privacy Policy](#), as amended from time to time
